## DEALER'S MANUAL

Version 1.5 August 2001

Eu Di U.K.  
Cl Canada

# CASIO®

# Introduction & Contents

---

This manual is intended to be used as a reference to the CE-7000, TK-7000/7500, TK-6000/6500, CE-6000/6100, CE-T300 and TK-T500 system. It provides details to allow whole understanding of the system capabilities, its operation, and how it can be used to solve many problems within the retail outlet.

This manual consists of the following chapters:

1. Hardware configuration (for installation)  
This chapter describes the hardware of these models and their network systems.
2. IPL (initial program loading)  
This chapter describes how to download the application program to the terminal.
3. Initialization  
This chapter describes how to set up the peripheral devices and the terminals.
4. Programming  
This chapter explains actual programming procedure and functions.
5. Manager mode
6. X/Z report
7. Consolidation
8. Application system
9. Tips
10. Appendix:

## Printing history

Manual version		Software version
Version 0.1.0 : February 2000	Tentative edition	Version -.--
Version 1.0.0 : March 2000		Version 1.0
Version 1.0.1 : May 2000	TK-T500 (CE-T300) added	Version 1.0
Version 1.1.0 : June 2000	Programmable error/guidance message	Version 1.1
Version 1.2.0 : July 2000	Australian GST	Version 1.2
Version 1.3 : August 2000	Improvement of efficiency	Version 1.3
Version 1.4 : June 2001	Modify Euro setup	Version 1.4
Version 1.5 : August 2001	Specification enhancement	Version 1.5

## Revised points

- Version 1.01 :
  - Add CE-T300 and TK-T500 features
- Version 1.1.0 :
  - Error message file and guidance message files are allocatable and programmable.  
If these files are not allocated, the default messages are used.
- Version 1.2.0 :
  - Australian GST
  - Add an option to print consecutive number range of the day on daily fixed total report.
  - Vacant record search (arrangement program)
- Version 1.3 :
  - High speed slip printing option is available.
  - Record designation is not necessary for batch maintenance PLU programming.
  - Single item status is not effective after <NORMAL RECEIPT> registration.
- Version 1.4 :
  - Modify the Euro setup procedure.
  - Increase the maximum number of the scanning PLU items up to 20,000.
  - Increase the maximum number of the records of “character recall” and “scheduler” file.
- Version 1.5 :
  - Character edit mode (override the programmed character)
  - Inline consolidation of PLU by group
  - Graphic logo printing on external printer
  - Default menu sheet No. after signing on
  - Operation restriction of sheet holder by clerk
  - Operation restriction of issuing individual key reset report
  - Double batch report
  - Memory affection of mix & match transaction (net totaling)
  - 13-digit non PLU weight type barcode
  - Job command for “default menu sheet No.” and “Operation restriction of sheet holder.”
