5. Swivel or tilt the LCD panel	8
6. Troubleshooting	9
7. List of options	10
8. Specifications	11

WARNING: This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause interference to radio communications. It has been tested and found to comply with the limits for a Class A computing device pursuant to Subpart J of part 15 of FCC Rules, which are designed to provide reasonable protection against such interference when operated in a commercial environment. Operation of this equipment in a residential area is likely to cause interference, in which case the user at his own expense will be required to take whatever measures may be required to correct the interference.

This equipment should only be connected to and used with devices expressly designated by the manufacturer of this equipment. Use only connecting cables expressly designated for such purpose by the manufacturer of this equipment. Failure to do so can cause damage to and malfunction of both devices, as well as other equipment.

The main plug on this equipment must be used to disconnect mains power.
Please ensure that the socket outlet is installed near the equipment and shall be easily accessible.

Zur Trennung vom Netz ist der Netzstecker aus der Steckdose zu zielen, welche sich in der Nähe des Gerätes befinden muß und leicht zugänglich sein soll.

Please keep all information for future reference.
