To prevent malfunctions caused by the weak batteries, charge the memory protection batteries for over 12-hours before installation or after a long-time vacation (over 30 days).

- Before installation, initialize the terminal and leave it turn on over 12-hours.
- After a long-time vacation, initialize the terminal and restore the program data if the terminal is in malfunction, and leave it turn on over 12-hours.
- Over 48-hours charging makes the batteries fully charged.
