Major Features

- 60 departments that can be grouped into up to 10 merchandise categories and programmed in detail;
- Up to 1,500 programmable article Price Look-Up (PLU) settings;
- Programmable clerk operating limitations for extra security;
- 15 clerk numbers to monitor the sales of individual employees, and possibility of activating a Clerk Security System consisting of a three-digit security code;
- Electronic journal with a capacity of up to 13,000 transaction lines for storing all transaction data; signaling of EJ memory full and nearly full conditions;
- Single-line client and dual-line operator alphanumeric displays;
- Two mutually exclusive keypad layouts; possibility of installing a transaction keypad sheet to perform normal sales transactions and a text programming keypad sheet to program the cash register;
- Thermal printer with journal record, customer receipt and invoice printing capabilities;
- Customer or restaurant table management feature that keeps track of orders taken by up to 70 customers (for example, in a delicatessen) or at up to 70 tables (for example, in a restaurant);
- Four ordinary tax and four alternative tax statuses;
- Restaurant guest management feature that totals the items ordered by a determined guest at a table party;
- Restaurant divide payment feature that splits the total amount among the guests at the table;
- Customer receipt printing, management report printing and message display in English, French, German, Spanish, Dutch, Portuguese, Danish, Swedish or in a new user-defined language entry;
- Training mode facility with related password;
- Receipt on/off capabilities;
- Possibility of naming departments, department groups, clerks, PLUs, foreign currencies, payment means, receipt headers and footers;
- Possibility of defining manager passwords for the PRG and Z modes, X mode, and Training mode;
- Special rounding capabilities for Swiss, Danish, Swedish and Euro currencies;
- 4 foreign currency exchange rates;
- Cash, check, charge and two card tender media keys, with change tendered on all payments;
- Possibility of programming the cash register to print a range of VAT totals on the sales receipt;
- Sales transaction hold and recall function;
- Battery back-up protection for the records and programming data.

Cash Register Components

With reference to figure 1:

1. Customer and operator displays
2. Keypad with transaction and text programming keypad sheets installed
3. Cash drawer with lock and item deposit drawer
4. Power cord
5. Control lock
6. Printer compartment lock
7. Printer compartment cover with receipt output window.

Removable Cash Drawer with Lock

With reference to figure 4, the cash drawer has slots for banknotes and for coins. Open the drawer by pressing  or by sliding the hidden emergency button underneath the register.
