

OLYMPIA

CM 1688

User Manual

on having chosen an Olympia Office cash register.

Due to the simple layout of its keypad and numerous programmable functions, this cash register is especially user-friendly.

This cash register enables you to register amounts according to departments, store items and add a stamp to the receipt. Different types of reports can be generated in order to analyse the sales numbers.

This user manual describes the cash register's functions, components and operation steps. Read this manual carefully so you can take advantage of your new cash register in the best way possible.

Olympia Office Vertriebsgesellschaft mbH

Important

The action to be taken in the case of damage during transport is explained in the chapter "Reporting loss or damage" at the end of this manual.

This user manual is purely informative. The contents are not part of any offer for sale or contract.

The specifications, accessories and options described may differ from country to country.

Olympia Office Vertriebsgesellschaft mbH reserves the right to revise specifications, make modifications and technical changes to the product described herein without notification.
