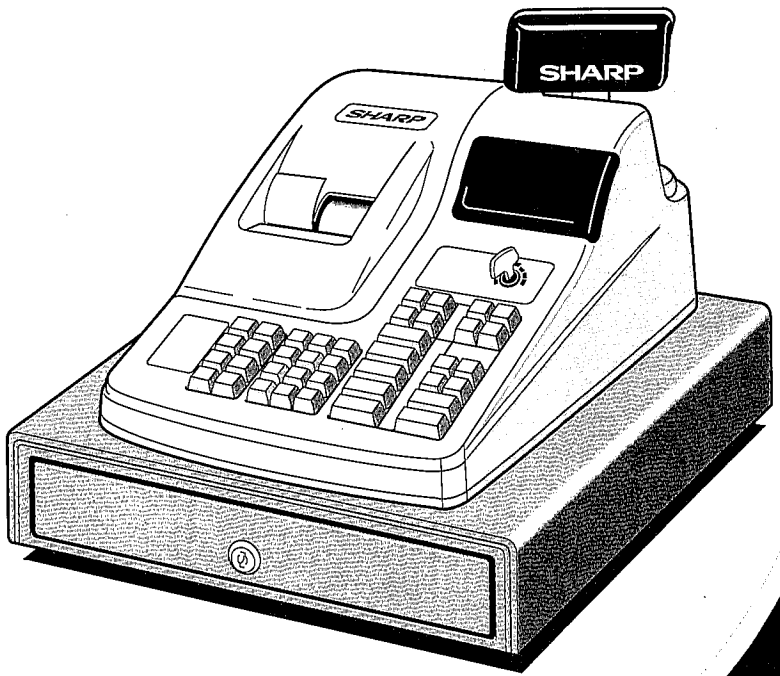
MANUEL D'INSTRUCTIONS
MANUAL DE INSTRUCCIONES



If undue force is applied to the drawer, the cash register will become unstable.

CAUTION:
The socket-outlet shall be installed near the equipment and shall be easily accessible.

VORSICHT:
Die Netzsteckdose muß nahe dem Gerät angebracht und leicht zugänglich sein.

ATTENTION:
La prise de courant murale devra être installée à proximité de l'équipement et devra être facilement accessible.

AVISO:
El tomacorriente debe estar instalado cerca del equipo y debe quedar bien accesible.

VARNING:
Det matande vägguttaget skall placeras nära apparaten och vara lätt åtkomligt.

This apparatus complies with the requirements of BS 800 (EN 55014): 1988 and BS 6527 (EN 55022): 1988.

Dieses Gerät stimmt mit den Bedingungen der EN 55014, 02. 1987 und der EN 55022, 04. 1987 überein.

Cet appareil répond aux spécifications de la EN 55014, 02. 1987 et EN 55022, 04. 1987.

Dit apparaat voldoet aan de vereiste EN 55014, 02. 1987 en EN 55022, 04. 1987.

Apparatet opfylder kravene i EN 55014, 02. 1987 og EN 55022, 04. 1987.

Questo apparecchio è stato prodotto in conformità alle EN 55014, 02. 1987 e EN 55022, 04. 1987.

Αύτή ή συσκευή τηρεῖ τίς προδιαγραγραφές τῆς EN 55014, 02. 1987 κατ EN 55022, 04. 1987.

Este aparelho responde às especificações de EN 55014, 02. 1987 e EN 55022, 04. 1987.

Este aparato cumple las especificaciones de la EN 55014, 02. 1987 y EN 55022, 04. 1987.

CAUTION:
For a complete electrical disconnection pull out the mains plug.

VORSICHT:
Zur vollständigen elektrischen Trennung vom Netz, den Netzstecker ziehen.

ATTENTION:
Pour obtenir une mise hors-circuit totale, débrancher la prise de courant secteur.

AVISO:
Para una desconexión eléctrica completa, desenchufar el enchufe de tomacorriente.

VARNING:
För att helt koppla från strömmen, dra ut stickproppen.

SHARP ELECTRONIC CASH REGISTER

Thank you for purchasing SHARP Electronic Cash Register Model ER-A250. Please read this manual carefully before operating your machine. Keep this manual for future reference. It will help you solve any operational problems that you may encounter.

IMPORTANT!

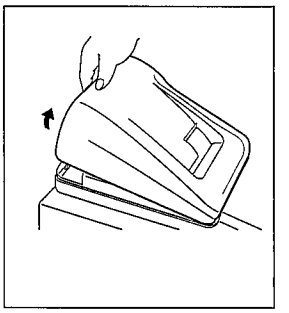
Do the following before using the cash register.

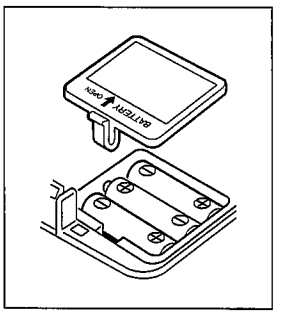
1. Install Batteries

Batteries must be installed in the cash register to prevent the data and user-programmed settings from being erased from memory when the AC power cord is accidentally disconnected or in case of a power failure. **Please install the three AA batteries before proceeding with setup and use of this cash register.** Once installed, the batteries will last approximately one year before needing replacement. At this time, the "L" symbol will appear on the display to indicate that the batteries are low and must be replaced within two days. For replacing the batteries, see page 39.

Install batteries according to this procedure:

1. **Remove the cash register from its carton and packing materials.**
2. **Pull the printer cover upward and detach it.**
3. **Open the battery cover next to the paper roll cradle.**
4. **Insert the three new AA batteries.**
5. **Close the battery cover.**





Note • Your cash register comes with a battery caution label. Please cut off the appropriate half and attach it to the battery cover.

6. **Replace the printer cover.**

Caution • When inserting batteries place them so that the positive (+) and negative (-) ends face the proper direction as shown in the battery compartment.
• Do not mix battery types or brands.

2. Reset the Cash Register

In order for your cash register to operate properly, you must reset it before programming for the first time. Follow this procedure.

1. **Insert the manager key (MA) and turn the mode switch to "PGM."**
2. **Insert the power plug while keeping [JOURNAL] and [8] depressed simultaneously until the display shows "0.00".**
   • The cash register is now reset and ready to be programmed.

Note • If you do this operation without installing batteries, a buzzer will sound three times.
• If you do this operation with paper rolls already installed, the printer prints "******8" on the journal paper.

Caution • All the contents of memory are erased when the cash register is reset.
