Sharp UP-X300 back office instruction Manual

SHARP

POS TERMINAL

MODEL

# UP-X300

## BACK OFFICE INSTRUCTION MANUAL

# INTRODUCTION

Thank you very much for your purchase of the SHARP POS Terminal Model UP-X300. This UP-X300 Back Office Instruction manual explains how to use the Back Office; programming procedures for UP-X300.
Please read this manual carefully before operating the Back Office in order to gain full understanding. Please keep this manual for future reference. It will help you if you encounter any operational problems.

For handling the hardware, please read the SHARP POS Terminal Model UP-X300 HARDWARE manual.
Handling precautions, parts names and functions are included in the hardware manual.

## ■ Notation

POS system: Indicates a communication network system configured with POS server and POS terminals.
POS server: Indicates a POS terminal which is used as a master where the Back Office is installed.
POS terminal: Indicates a POS terminal which is used as a satellite.

## ■ How to read this manual

After basic explanation such as main menu and basic operation method (chapter 1 and chapter 2), this manual advances in the order of menu items, starting the top of menus. The lowest hierarchy menus are entitled. Please find a menu item you want in the Contents to find the page number.

# CONTENTS

**INTRODUCTION** ..... **1**
Notation ..... 1
How to read this manual ..... 1
**CONTENTS** ..... **2**

**1 Before Operating the POS Server** ..... **8**
Connecting peripherals ..... 8
Operational restrictions on the Back Office ..... 9
How to operate the POS Server ..... 10
