## INTRODUCTION

This programming manual is provided for salespersons, field engineers, and other support personnel as supplementary manual for the TEC electronic cash register series MA-1070-200. Reading through the MA-1070-200 Owners Manual is recommended in order to thoroughly understand the description in this manual.

The MA-1070 has been developed to satisfy most functions available on the MA-1100 series, using the MA-1040 hardware.

## MAIN DIFFERENCES BETWEEN MA-1100 AND MA-1070 SERIES

|  | MA-1100                                    | MA-1070  |
|--|--|--|
| Cabinet  | MA-1100 Type                               | MA-1040 Type<br>(with BIU pop-up feature)                                  |
| Receipt/Journal Printer                                | DPR-730                                    | DPR-370  |
| Number of Keys on Keyboard                             | Max. 88 keys (Ordinary Keyboard Type only) | Max. 72 Keys (Ordinary Keyboard), or max. 88 keys (for Flat Keyboard Type) |
| PLU Keyboard (option)                                  | Max. 130 keys fixed (PK-1)                 | Same as MA-1100 (PK-2)   |
| Program Loader (option)                                | Available (PL-1)                           | Available (PL-2)<br>(ECR SEL No. 0)  |
| [SI/M] Key   | Provided                                   | Not provided   |
| [SI/TL] Key  | Provided                                   | Not provided   |
