1. HOW TO USE THIS PARTS LIST

1-1 This Parts List is to be used for model MA-136-200 SERIES.

1-2 Ref. No. is a part location number composed of 2 (two) numbers.

The first number shows a page number, and the second one shows a consecutive number. By using Ref. No., you can find out parts quickly from parts list in which pages they are described.

1-3 The definition of screws and washers

The screws standardized by ISO and washers are not put with respective parts numbers, but instead dimensions and symbols of them are directly written in the drawing. When ordering, write numbers in the drawing in your order sheets. The symbol designation for screw and washers are shown in the following page.

However, please note that screws and washers are listed for symbol designation purpose only and the actual dimension of them is shown in the drawing section of parts list.

These miscellaneous parts shall be ordered at each 100 pieces per order.

This is a “Table of Contents preview” for quality assurance

The full manual can be found at <http://the-checkout-tech.com/estore/catalog/>

We also offer free downloads, a free keyboard layout designer, cable diagrams, free help and support.
