1. INTRODUCTION

This system programming and operation manual is provided for salespersons, field engineers and other personnel as supplementary manual for the TEC electronic cash register series MA-1700-200 Stand-alone and Master-Satellite System.

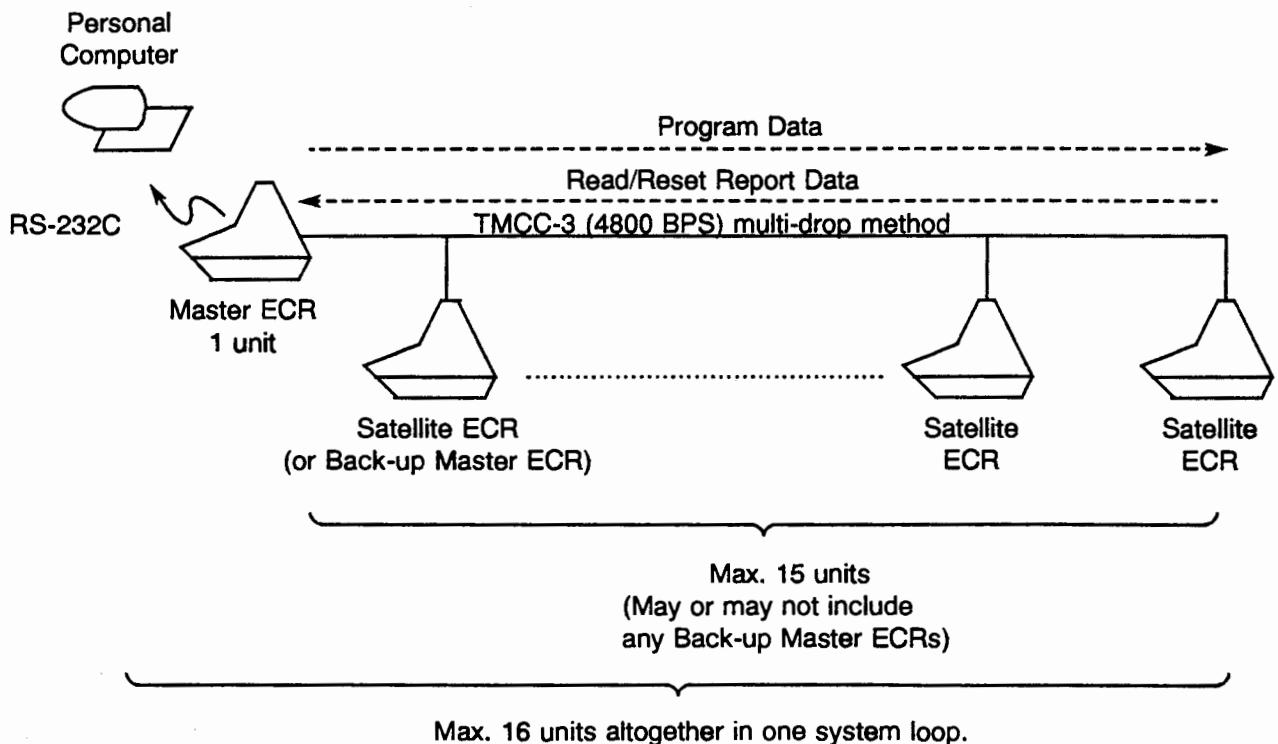

Using a master terminal designed by adding a master IFU board to an MA-1700 stand-alone and satellite terminals to which satellite IFU boards are added, the MA-1700 M/S system can comprise system made up of up to 16 units.

Note that given at the beginning of each item is an explanation indicating whether it is setting or operation possible at stand-alone level or in a master-satellite system.

Any detail information not described here, please refer to the Owner's Manual for the MA-1700 series issued for the stand-alone level. Also refer to the Owner's Manual for the MA-1700 Master-Satellite System issued separately from that of the stand-alone level.

2. SYSTEM OVERVIEW

SYSTEM CONFIGURATION
