

Programming Manual

TEC ELECTRONIC CASH REGISTER

MA-230-100 SERIES

***TEC* TOKYO ELECTRIC CO..LTD.**

PROGRAMMING OPERATIONS

This manual is provided for the programmer or the manager of the store where the ECR MA-230-100 series model is used. Since your TEC representative programs all the requirements to start daily operations, the register is ready to be operated. However, when the store needs to change the programmed data on the daily, weekly, or monthly basis, please refer to this manual in operating the program changes.

If there are any unclear points in this manual or any data other than listed in this manual must be changed, please contact your local TEC representative. Please also note that reading through the MA-230-100 OWNERS MANUAL is recommended to thoroughly understand the descriptions in this manual.
