ACUWEIGH COPORATION

Important:

- **Please read the user's manual carefully before operating the indicator.**

- **Please do not touch the I/O interfaces when the indicator is line-powered.**

- **The signal ground to the indicator must be connected to ensure proper operations of the indicator.**

- **FS06 is an AC/DC powered indicator with a rechargeable internal battery. A fully charged battery life is about 4 hours with 8 (750 Ω) load cells connected.**

2. 1. Specifications

- Analog signal input range: 1 – 3 mV/V

- Excitation voltage: 5V DC, up to 8, 350Ω load cells. up to 16, 700Ω load cells

- A/D resolution: 1.5 million internal counts

- A/D sampling rate: 60 times/second

- Accuracy of measured weight can be temporary increased ten times

- 6-digit, 7-segment with a decimal point, FS06R, FS06RP:30.5 mm high Red LED display

  FS06G, FS06GP :25 mm high Green LED display

- Real-time clock and programmable date and lock to stop work

- 28 function keys menu driven calibration and configuration

- Selectable display resolution

- Selectable kg and t unit

- Selectable digital filter value

- Four non-linearity calibration points

- Allow changing of indicator without recalibration

- Lock display when overload is greater 130% FS

- Auto zero range

- Store and recall up to 100 vehicle numbers and tares, 1000 weighing records and 10 unit-prices

- Optional built-in micro printout or external 24-pin dot matrix printer

- Selectable manual or automatic printout

- Daily, monthly and statistics reports by time, vehicle or goods number

- RS-232C interface with 2 transmit outputs, selectable baud rate: 1200, 2400, 4800, 9600

- Optional RS-485 interface

- External Power supply options from 187V to 242V, 50Hz ±2%
