Operator Instructions

76102-360 Issue 2 01.04.98

Contents

1 Before You Begin
Certificates of Conformity

2 The F Series

3 Operating the Balance

4 Balance Operating Menu

5 Setting Operating Parameters

6 Weighing Using Two Weighing Levels

7 Interface Parameter Settings

8 Utilities For Data Transfer

9 Additional Functions

10 Application Programs

11 ISO/GLP Compliance

12 Looking After Your Machine

13 Appendix

A

Accessories, 2–4
Additional functions, 9–1
  blocking the keys, 9–2
  menu access switch, 9–1
  menu access switch on verified balances, 9–1
  power on mode, 9–4
  remote control, 9–3
Adjustment, 3–3
Animal weighing, 10–17
  automatic start, 10–17
  autostart storage threshold, 10–20
  changing the number of the individual operations, 10–19
  delayed start, 10–18
  manual start, 10–17
Anti–theft device, 2–7
Application programs, 10–1
  examples, 10–1, 10–3, 10–9, 10–12, 10–14, 10–19, 10–20
  animal weighing/averaging, 10–17
  counting, 10–12
  tare memory, 10–1
  weighing in percent, 10–6
Averaging, 10–17

B

Balance operating menu, 4–1
  calling up the menu, 4–3
  changing menu settings, 4–2
  exiting the menu, 4–6
  menu access switch, 4–1
  resetting the menu, 4–7

C

Calibration, 3–3
  blocking calibration functions, 3–6
  external, 3–5
  internal, 3–4
  sensitivity test, 3–6
CAUTION
  damage to your balance, 1–5
  RFI, 1–4
Cleaning, 12–2
Counting, 10–12
  changing the reference sample quantity, 10–12
  displaying the reference sample quantity, 10–12
  storage parameter, 10–13

D

Data transfer utilities, 8–1
  automatic output of application parameters, 8–3
  automatic output of tare memory data, 8–4
  automatic printing, 8–2
  automatic taring (after data output), 8–3
  data output at defined intervals, 8–3
  data output parameter, 8–1
  ID codes, 8–4
  print on request, 8–3
Description
  connections, 2–2, 2–10
  display, 2–14
  general, 2–1
  keypad, 2–16
  options, 2–4
  switches, 2–2, 2–10
Display, symbols, 2–14

E

EU verified (M) balances, 1–7
  menu access switch, 9–1
  specifications, 13–8
Examples, application programs
  animal weighing (auto start mode), 10–20
  calculation of residual percentage weight, 10–9
  changing the number of individual operations, 10–19
  counting small parts, 10–14
  net total, 10–3
  reference sample size 20 pieces, 10–12
  tare–net–gross weighing, 10–1
External connections, 2–10

F

F series, models in range, 2–2
Function keys, 2–16

I

Installation, 1–3
  handling, 1–3
  connecting peripheral devices, 1–5
  display unit adjustment (FC161), 1–6
  electrostatic samples, 1–5
  legal requirements, 1–4
  positioning, 1–4
  radio frequency interface (RFI), 1–4
  preparation, 2–8
Interface parameter setting, 7–1
ISO/GLP compliance, 11–1
  application, 11–1
  operating the balance, 11–2
  printout/record (how to), 11–4
  printout/record for adjustment procedures, 11–3
  printout/record for application programs, 11–5

M

Maintenance, 12–1
  cleaning, 12–2
  servicing, 12–1

O

Operating requirements, 1–7
  EU verified (M) balances, 1–7
Operating the balance, 3–1
  additional functions, 9–1
  applications, 10–1
  balance operating menu, 4–1
  data transfer utilities, 8–1
  interface parameters, 7–1
  ISO/GLP compliant printouts and records, 11–1, 11–2
  operating parameters, setting, 5–1
  below balance weighing, 3–7
  calibration (adjustment), 3–3
  simple weighing, 3–2
  taring, 3–1
  weighing using two weighing levels, 6–1

P

Preparing your balance, 2–8

S

Safety, 1–1, 12–3
  inspection, 12–3
Servicing, 12–1
Self test, 2–11
Setting operating parameters, 5–1
  adapting to ambient conditions, 5–1
  adjustment, 5–6
  auto zero, 5–5
  calibration, 5–6
  linearization, 5–6
  stability range, 5–3
  standard filling mode, 5–2
  standard weighing mode, 5–2
  tare parameter, 5–4
  zero tracking, 5–5
Solving problems, 2–13
Specifications, 13–1
  standard features, 13–1
  verified balances, 13–8
Switching on, 2–10
Symbols, 1–2
  display, 2–14

T

Taring, 3–1
  container taring, 3–1
  zero the balance, 3–1

W

Warm up time, 2–12
WARNING
  electric shock, 1–1
  voltage rating, 2–10
Weighing, 3–2
  in percent, 10–6
  below balance, 3–7
  items in a container, 3–2
  simple weighing, 3–2
  using two weighing levels, 6–1
Weighing in percent, 10–6
  changing the reference percentage, 10–6
  display parameter, 10–8
  storage parameter, 10–7
Weighing using two weighing levels, 6–1
  display modes, 6–3
  weight units, 6–1
